Professional Summary

Mobile application developer with **4+ years** shipping **55+ applications** using Flutter, Java, and Kotlin — specialized in scalable solutions with advanced state management, RESTful APIs, payment gateways, and cloud platforms (AWS EC2, Firebase, Supabase). Consistent record driving measurable business outcomes including 70% efficiency gains, 30% performance improvements, and successful product launches, with expertise in AI/ML integration and cross-functional collaboration.

Skills

Languages: Dart, Java, Kotlin, C/C++, Python, JavaScript, SQL

Technologies & Tools: Flutter, Android, Kotlin, GetX, Provider, Riverpod, RESTful APIs, Firebase, Cloud Functions, SQL, NoSQL, SQLite, AWS EC2, Git, Docker, CI/CD, Push Notifications, TensorFlow, PyTorch, scikit-learn, MVVM, Figma

Professional Skills: Team Collaboration, Client Communication, Agile/Scrum, Technical Leadership

Work Experience

Seekr.ai, Hong Kong SAR (Remote)

May 2025 – Present

Android Developer (Android/AI Wearable Device)

- Achieved 70% battery efficiency gain and 100% connection stability using Kotlin Coroutines and dual network mode, reducing crash rate by 80% and improving sensor processing by 40%.
- Published production Android app with real-time ML detection serving users, decreasing disconnection issues by 99%. **Tech:** Android (Kotlin), Coroutines, Socket/HTTP, ML Integration, Git. **Play-Store:** *Seekr Android App*

Neways International Company Limited, Dhaka

Dec 2024 – Apr 2025

Mobile Application Developer (Android/iOS)

- Integrated RESTful APIs with SQL backend processing 10,000+ daily transactions at 99.5% uptime, improved load time by 35% via GetX/Provider state management, and built responsive layouts for 8+ device sizes with sub-2s response time.
- Launched 2 production apps for 1,200+ employees, cutting manual booking time by 60% and boosting referral engagement by 45%. **Tech:** Flutter, RESTful APIs, SQL, GetX, Provider, Git. **Video:** *SH-Cash*

SoftSnip, Australia (Remote)

Jun 2024 – Nov 2024

Web App Developer (Web/Firebase)

- Implemented real-time Firestore with 300ms sync latency, secure authentication for 15+ admins, and role-based access for 3 permission levels, shipping 2 weeks early with 92% code review approval.
- Developed car rental web app managing 200+ vehicles and 3,000+ monthly bookings, reducing admin overhead by 50%. **Tech:** Flutter, Firebase, Cloud Firestore, Authentication, Git.

Bit Encrypt IT, Dhaka

Jun 2023 – May 2024

Mobile Application Developer (Flutter/Android/iOS)

- Reduced API response time by 40% and app size by 18% via Hive caching; adopted MVVM across 12+ modules with 85% code reusability, accelerating team velocity by 20%.
- Engineered eCommerce apps serving 5,000+ users with payment gateways and push notifications, achieving 30% faster load time and 25% higher retention. **Tech:** Flutter, GetX, Provider, Android, Hive, Docker, Git. **Video:** *Ready-How*

Brac University, Dhaka

Dec 2022 – May 2023

Application Developer (Contract)

- Built QR attendance with 99.2% accuracy, cloud material sharing for 500+ documents, and push notifications delivering 10,000+ monthly announcements.
- Launched app adopted by 2,500+ students and 80+ faculty, reducing attendance processing from 15 minutes to 30 seconds. **Tech:** Flutter, Supabase, DigitalOcean, AI/ML, Git. **Video:** *School-Attendance*

Brac University, Dhaka

Feb 2022 – Nov 2022

Mobile Application Developer (Contract)

- Architected role-based access for 4 user roles with phone verification (98% success) and responsive Material Design UI achieving 95% user satisfaction.
- Shipped martial arts club app managing 150+ profiles and 200+ attendance records, improving efficiency by 55%. **Tech:** Flutter, Firebase, Riverpod, Git.

Education

BRAC University

Apr 2019 – Dec 2023

B.Sc. in Computer Science

CGPA: 3.02/4

Coursework: Software Engineering, OOP, Android App Dev, Database Systems, DSA, AI, NLP, Applied Data Science, Computer Networks.

Projects

- Organization Management App (2024):** AI-powered app cutting approval time by 65%, role dashboards for 500+ users, attendance tracking at 98% accuracy, payment processing handling \$50K+ monthly. **Tech:** Flutter, Firebase, PyTorch. **Video:** *TManageHub*
- PlantTreatMonty (2024):** Disease detection at 87% accuracy via custom ML on 15,000+ images, covering 40+ conditions with 1,000+ contributions. **Tech:** Flutter, ML, Cloud. **Video:** *PlantTreatMonty*
- Wallpaper Bot (2023):** AI recommendation analyzing 8 demographics and 5 emotions, serving 800+ users with 72% engagement. **Tech:** Flutter, Firebase, PyTorch.

Awards, Certifications & Publications

- Winner - Won the 1st prize in the Tech Spectra 2.0 hackathon based competition**
- Certifications:** Flutter & Dart (Udemy), Data Science (IBM), SQL (IBM)
- Publication:** *The Effectiveness of Different Deep Learning Models in Detecting Hate Speech on Social Media* — 2023 IEEE R10-HTC.
